

APP LOGO

When you click on the app - the logo is the splash screen (ideally animated of the radar sweeping for a second or two and then app starts

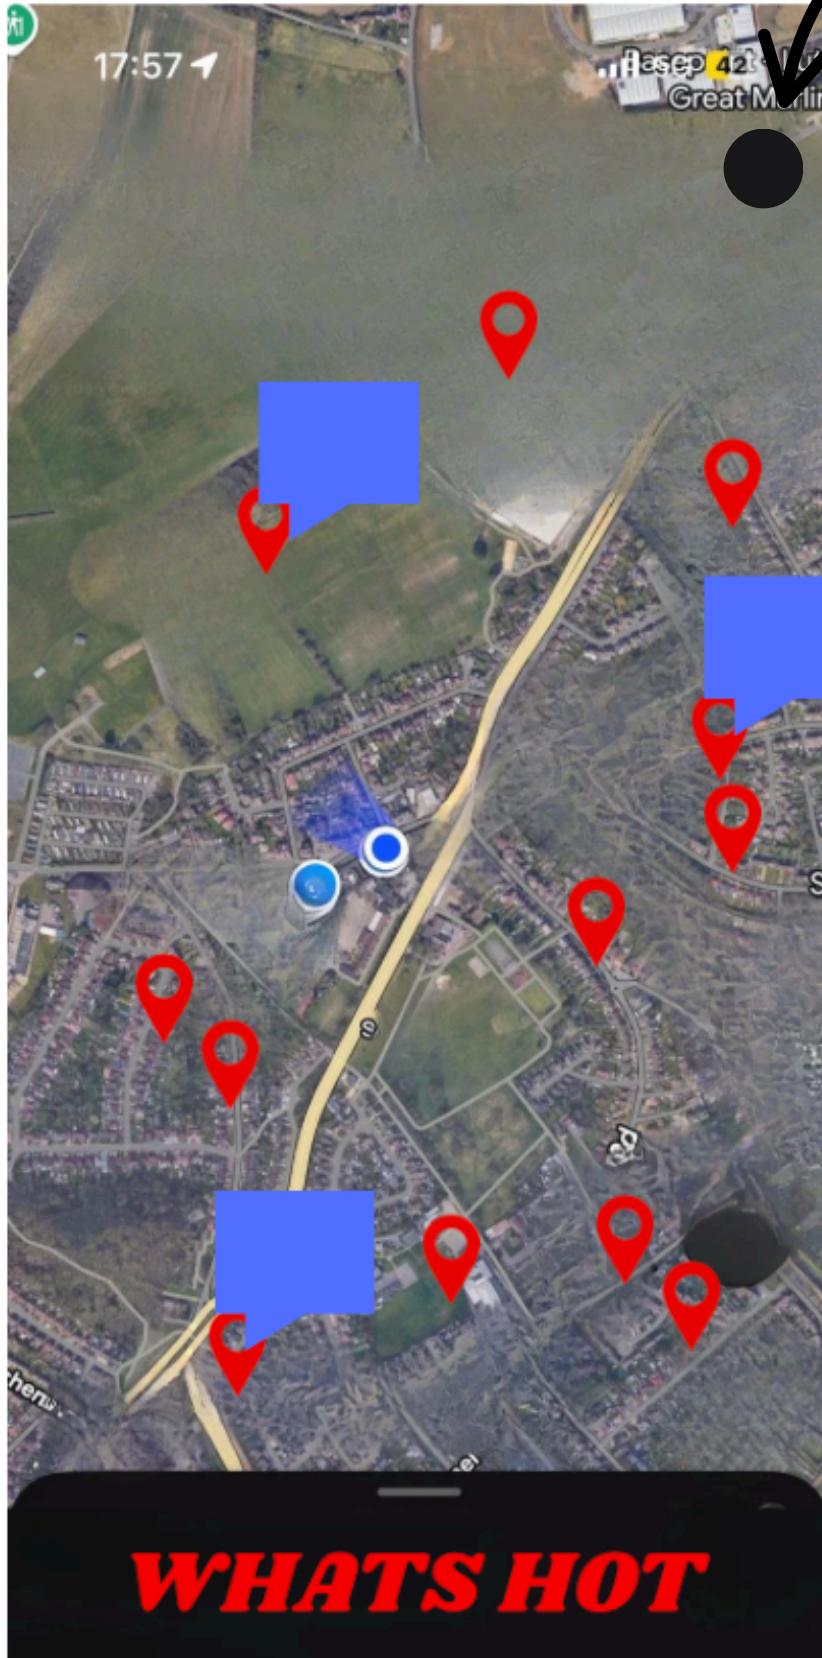

As soon as  
the app  
loads a  
prompt says  
'give access  
to  
information'

default pre  
set radius  
150m

with the map  
not too  
zoomed in

all the pins  
show where  
there are  
venues/  
pubs/ clubs /  
bars / events

Settings  
button

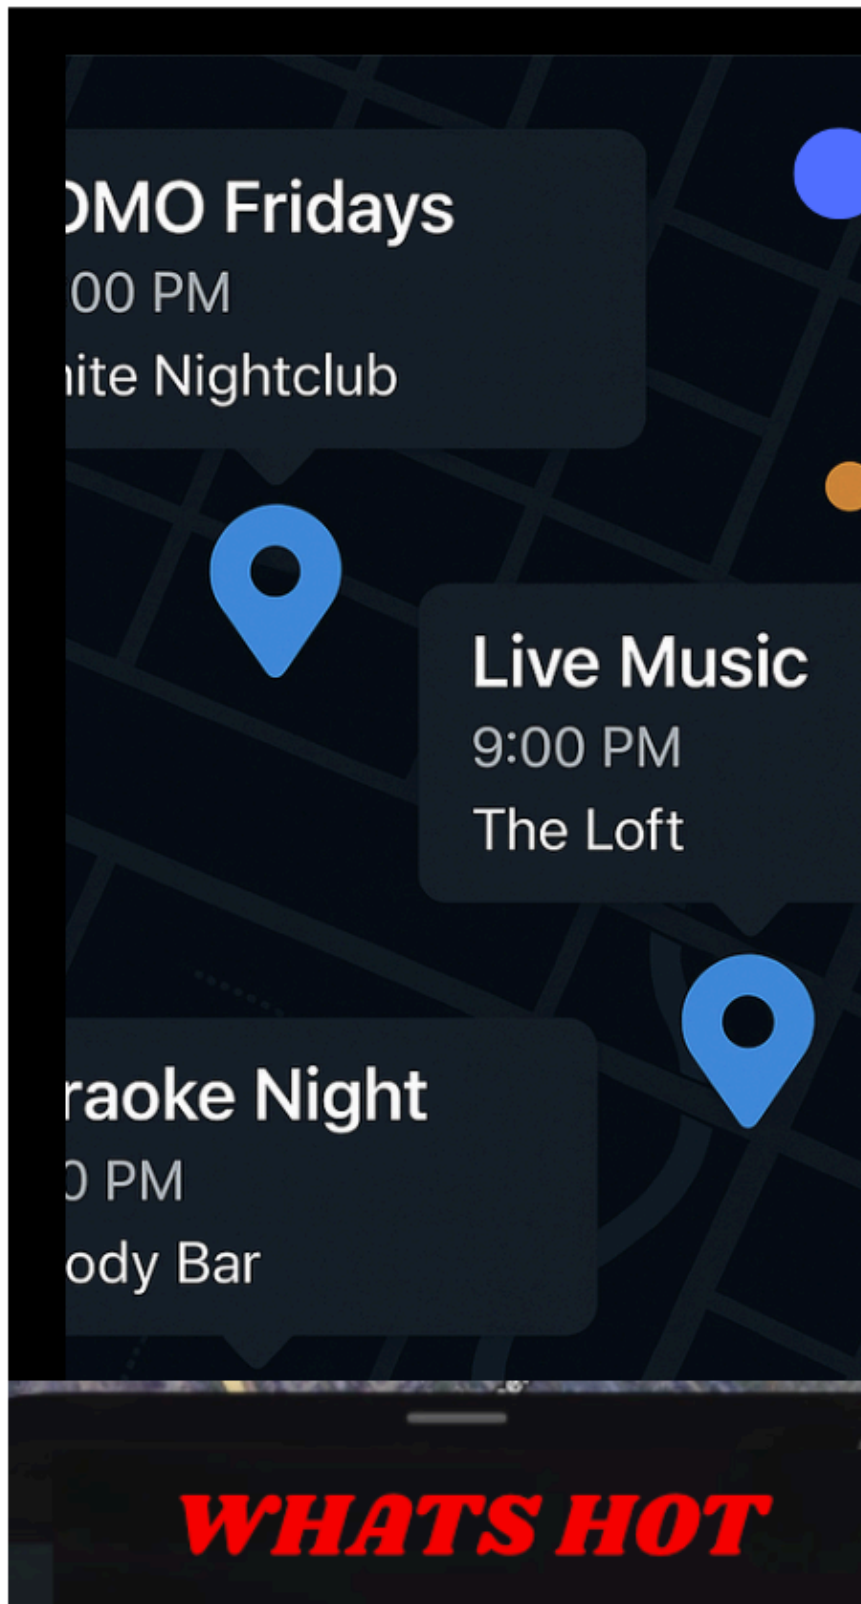

where users  
go to

‘set radius’  
filter certain  
venue types,  
bars, pubs,  
clubs etc

set a price  
range £,££,£££

and timings

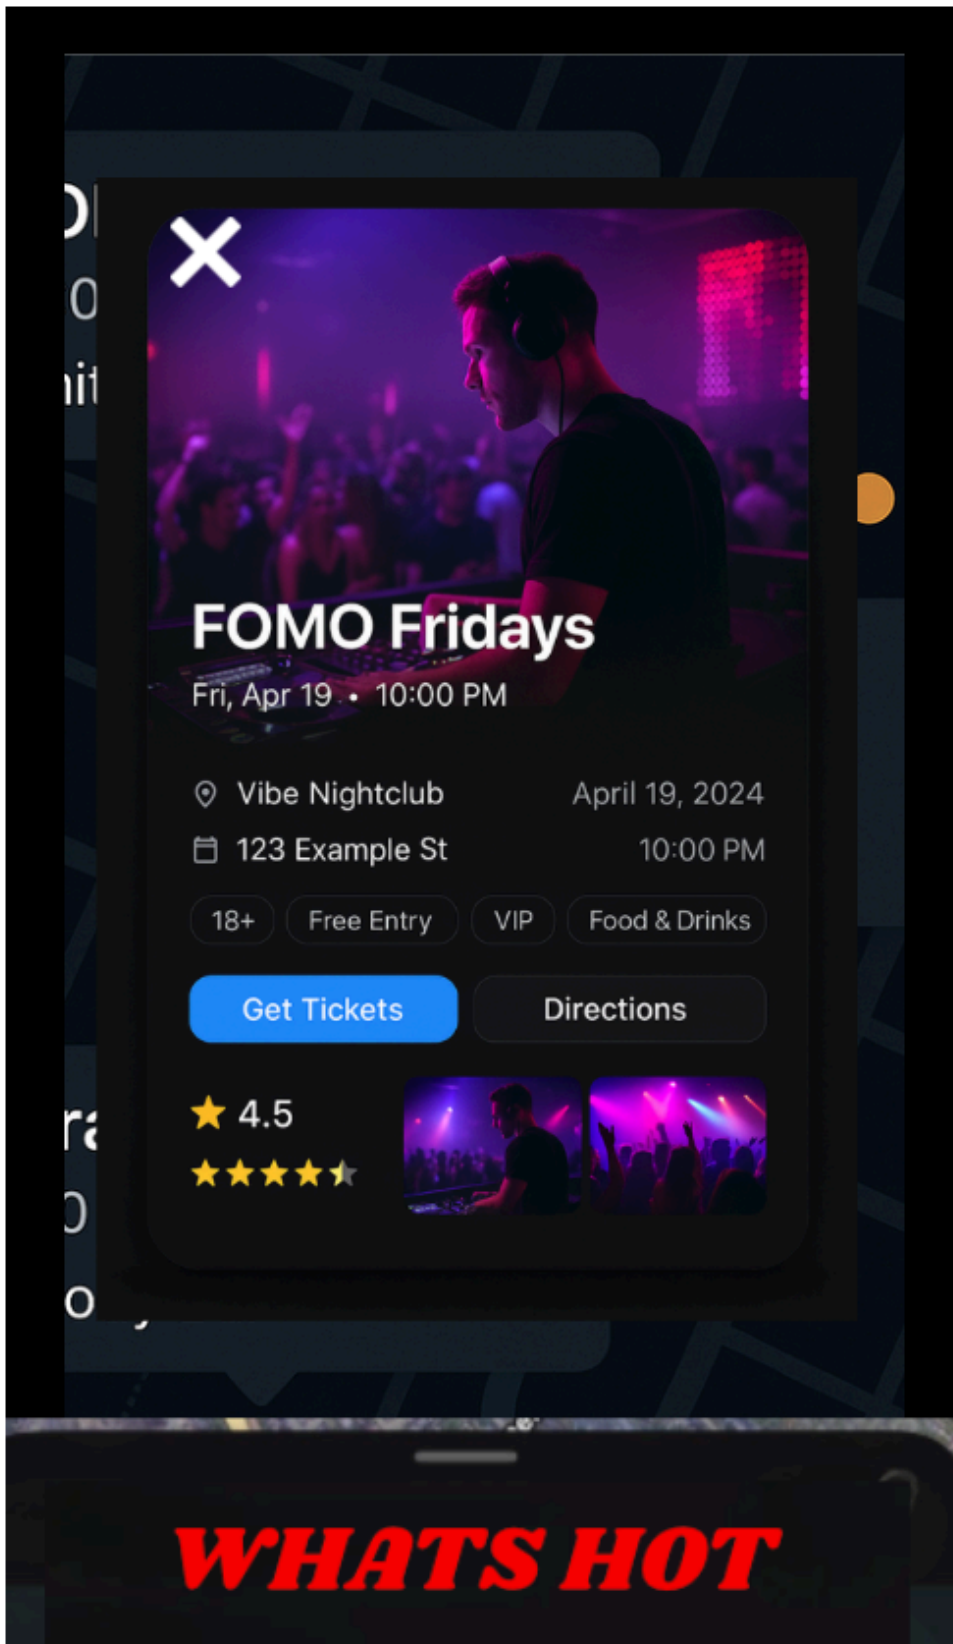

When users  
zoom in on the  
map,

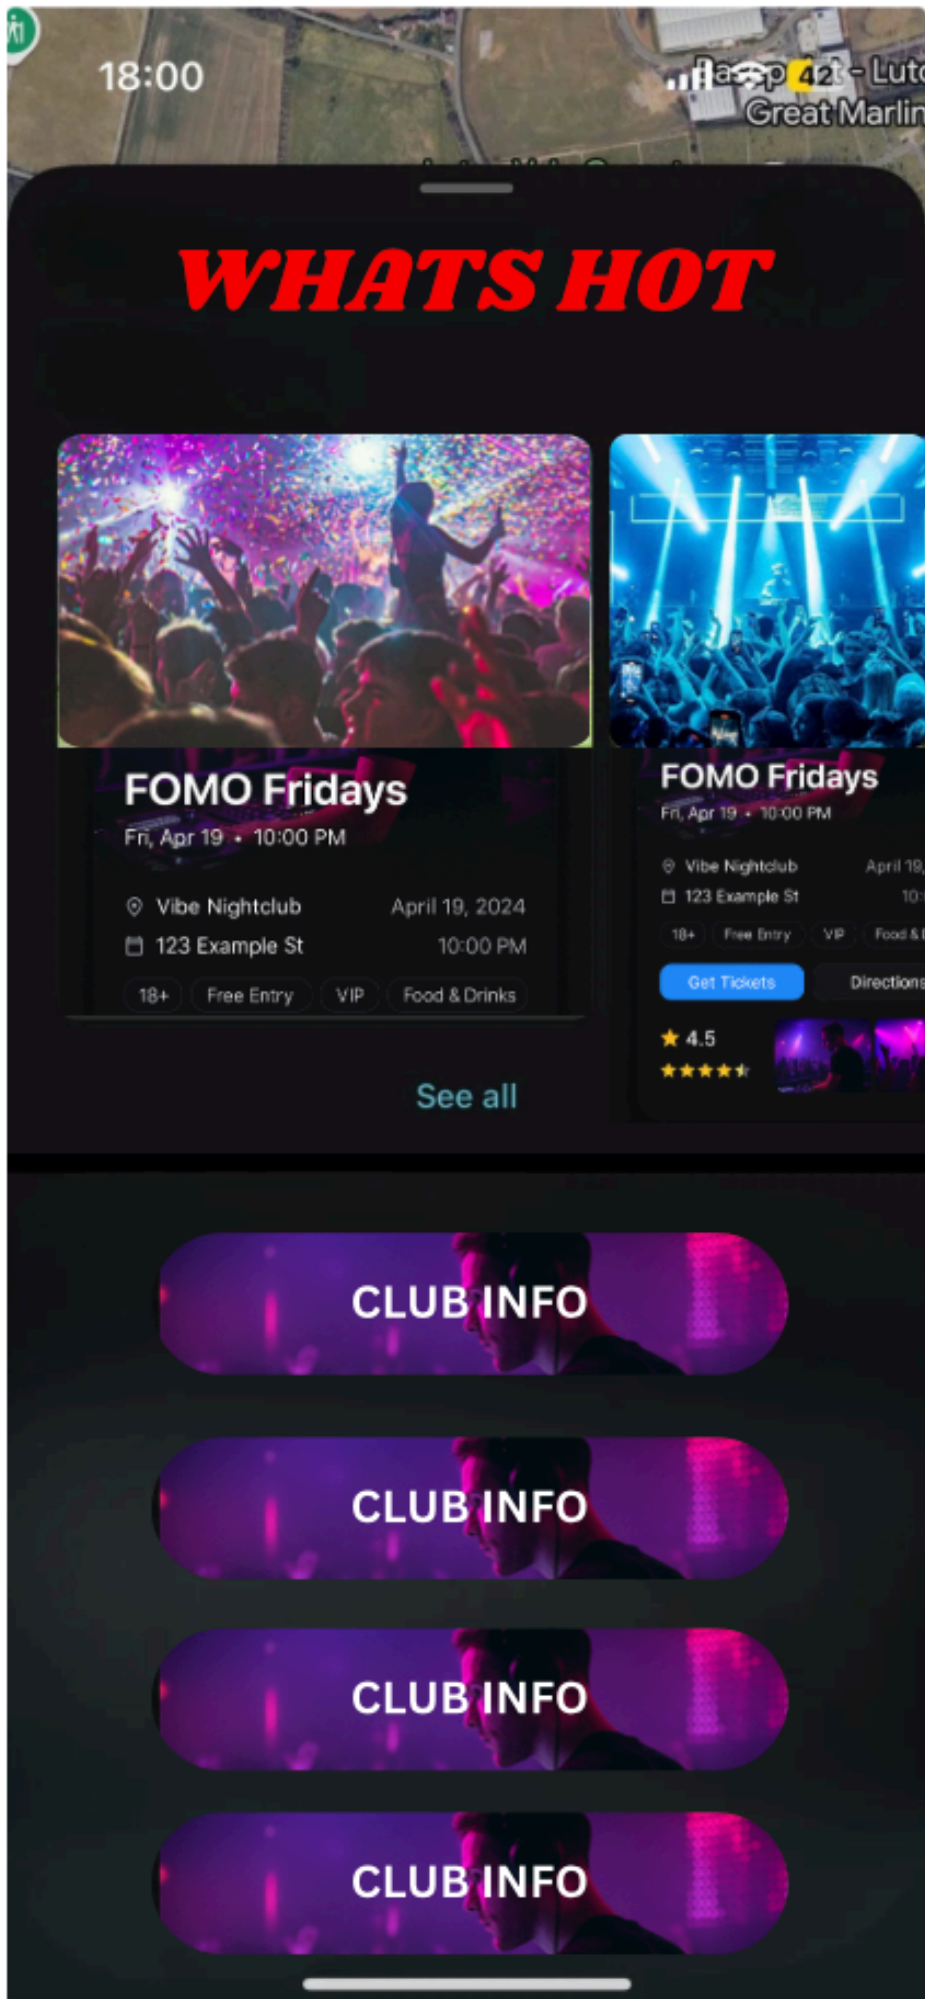

the map  
becomes  
more  
detailed.

small profiles  
on each pin  
become  
visible with a  
short  
breakdown of  
event/ venue,  
name, timings,  
etc

When users click on the pin they like the look of - a screen opens that show full details of the event

name, timings, address, google rating? directions and a get tickets button that redirects them to relevant site - fatsoma for example,

‘whats hot’

a window  
thats easy to  
swipe up and  
down from

spotlight  
events at the  
top that are  
paid  
promotions or  
popular  
events/  
venues

and then  
below that a  
list of all  
events in  
radius order...  
closer events  
at the top etc
